PRESS RELEASE

Intervest Offices & Warehouses attracts first tenant in Greenhouse BXL,
an innovative redevelopment project in the Brussels periphery.

Cazimir found Intervest's Greenhouse BXL particularly appealing because it is one of the newest office projects in the Brussels periphery which is fully based on the concept of the new way of working.

Greenhouse BXL has been designed as an inspiring environment where working and experiencing go hand in hand with a service-oriented and flexible approach to the customers and their employees. Various types of workplaces and meeting rooms, an auditorium for informative meetings, a lot of green space, a good parking spaces ratio for clients and employees and sports and leisure possibilities, are a few of the most important trump cards that played a role in Cazimir's choice. Greenhouse BXL combines for this client a pleasant working environment with appropriate look and feel.

The construction work for the redevelopment of the site into Greenhouse BXL with a third RE:flex and co-working lounge began in the first quarter of 2017 and is expected to be finished in May 2018 to welcome its first customers.
